

MINE:

Come on in Men light your way
This is it for you it's time to pay
Make your holes deeper still
come in here every day, listening to my hunger pains.

Black coal
from vein after vein
you drain drain drain
replacing me with nothing

Do you pray
out loud
each day
that you walk into my mouth

Never knowing
only hoping
I'll keep it open
and let you back out

Chorus:
Maybe forever lost, taken by the mountain

You can't take without
giving back
What do I
get in return?

If you don't repay
the hand that feeds you
You gonna be eaten

Six men
never to be seen again
what's mine is mine is mine

Chorus:
Maybe forever lost, taken by the mountain

Good bye Daddy have a nice day
Goodbye husband go to work be safe
Goodbye Daddy give me a hug
hope that you don't get swallowed up.

Was that it then?
Was that what they said
when you left for work
when you turned your head?

Sunken mountain
sunken hearts
wives and children
all of us caved in.

Chorus:
Maybe forever lost, taken by the mountain
